RE: Freedom of Information Act Request: RIN HQ-FOI-01586-11

Dear Mr. Morris:

This responds to your Freedom of Information Act (FOIA) request which we received on June 1, 2011. You requested the "current version of the EPA's Facility Watch List in electronic format (spreadsheet or relational data base)."

With this letter we are partially fulfilling your request. The response to your request is being sent to you via email ([jmorris@publicintegrity.org](mailto:jmorris@publicintegrity.org)) per your request. The data in the spreadsheet was refreshed in July 2011, and is the most recent information. Please be advised, however, that this data is potentially subject to a variety of data issues, such as changes that have occurred since the July 2011 refresh. The Watch List is compiled by applying criteria to data submitted by the states and EPA. That data, and the applicability of the criteria to specific facilities, is constantly reviewed and updated by the states and EPA. Facilities may occasionally be removed from the Watch List as a result of those reviews. For that reason, prior to using this data for any purpose we urge you to verify the data with the appropriate state or EPA regional office.

We are also partially denying your request. After a thorough review we have determined that there is additional data contained in the Watch List that is enforcement confidential and therefore exempt from disclosure under Exemptions 5 and 7(E) of the FOIA, 5 U.S.C. §§ 552(b)(5) and (7)(E). This decision is consistent with prior denials of requests for Watch List information.

You may appeal this partial response to the National Freedom of Information Officer, US EPA, Records, FOIA and Privacy Branch, 1200 Pennsylvania Ave, NW (2822T), Washington, DC 20460. You can fax your appeal to (202) 566-2147, or email it to [hq.foia@epa.gov](mailto:hq.foia@epa.gov). Only items mailed through the United States Postal Service may be delivered to 1200 Pennsylvania Avenue, N.W. If you are submitting your appeal via hand-delivery, courier service, or overnight delivery you must address your correspondence to 1301 Constitution Ave, NW, Room 6416J, Washington, DC 20001. Your appeal must be made in writing, and it must be submitted no later than 30 calendar days from the date of this letter. The Agency will not consider appeals received after the 30 calendar day limit. The appeal letter should include the RIN listed above. For the quickest possible handling, the appeal letter and its envelope should be marked "Freedom of Information Act Appeal."

There is no charge for this information. If you have any questions regarding this response, please call Chad Littleton, of my staff, at (202) 566-0796.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Dombrowski".

Re: Freedom of Information Act Request HQ-FOI-00086-12

Dear Ms. Haebler:

This is in response to your Freedom of Information Act (FOIA), 5 U.S.C. 522 request, dated October 14, 2011 and received in this office on October 14, 2011, for a copy of the July 2011 High Priority Violator Watch List. Enclosed please find a copy of the July Watch List. As stated in the email from Jason Swift on November 7, 2011, the Watch List is publicly available on EPA's website.

The Watch List is automatically created each month. The list of facilities on the Watch List has been posted beginning with September 2011 to the publicly available Enforcement and Compliance History Online (ECHO) website ([www.epa-echo.gov/echo](http://www.epa-echo.gov/echo)). ECHO provides compliance inspection and enforcement information about facilities regulated under the Clean Air Act, Clean Water Act, Resource Conservation and Recovery Act, and Safe Drinking Water Act. EPA makes this data available to the public, free of charge.

The direct link to the Watch List page on ECHO is  
[http://www.epa-echo.gov/echo/echo\\_watch\\_list.html](http://www.epa-echo.gov/echo/echo_watch_list.html).

If you consider this a denial, you may appeal this denial to the National Freedom of Information Officer, U.S. EPA, FOIA and Privacy Branch, 1200 Pennsylvania Avenue, N.W. (2822T), Washington, D.C. 20460 (U.S. Postal Service Only), FAX: (202) 566-2147, E-mail: [hq.foia@epa.gov](mailto:hq.foia@epa.gov). The appeal must be made in writing and must be submitted no later than 30 calendar days from the date of this letter. The Agency will not consider appeals received after the 30 calendar day limit. The appeal letter should include the FOI number listed above. If possible, the appeal letter and its envelope should be marked "Freedom of Information Act Appeal".

Because the cost of providing this information was less than \$14.00, no fee will be charged. Should you have questions regarding this response, please contact Jason Swift at 202-564-6692.

GAA Facilities on the active July 2011 Watch List

The list of facilities below composes OECA's July 2011 Clean Air Act Watch List. EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List may not mean that the facility has actually violated the law only that an evaluation or investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. The Watch List does not identify which alleged violations of environmental laws may pose the greatest risk to public health or the environment. It is an automated report based on data from the Air Facility System (AFS), which is used by federal, state and local agencies to track environmental enforcement and compliance information. Agencies input information into AFS, including information about violations that are identified as high priority violations (HPVs). Some facilities may appear on the Watch List due to data errors, which typically are identified and addressed during the EPA-state-local dialogue. EPA expects the government agency with jurisdiction over a facility with an HPV to initiate an appropriate enforcement response, in a timely manner, and input the action into AFS. Some facilities on the list are the subject of existing orders, are actively participating in negotiations with regulators, or are the subject of an investigation. While progress is being made toward resolving the violations, further activities may be required to achieve compliance. This list reflects updates from previous Watch Lists due to changes in the enforcement case status (e.g., HPVs addressed or resolved), data corrections made to AFS, or new facilities added. The dynamic nature of the Watch List is a result of its use as a management tool to oversee adherence by EPA, state, and local agencies to enforcement response policies. For detailed information, please see the Watch List Fact Sheet ([www.epa-otls.gov/echo/docs/watch\\_list\\_fact\\_sheet.pdf](http://www.epa-otls.gov/echo/docs/watch_list_fact_sheet.pdf)).
